TD24 Fattura Differita/ Deferred Invoice template

```
<?xml version="1.0" encoding="UTF-8"?>
<!--
=====
TEMPLATE: TD24 - FATTURA DIFFERITA (DEFERRED INVOICE)
=====

Amazon constants are pre-filled. DO NOT modify them.
Fill in all fields marked with [ ] brackets.
Remove all comments before submitting to SDI.
=====

USE THIS WHEN: You are invoicing for goods already
delivered with a DDT (Documento di Trasporto).
TD24 allows you to consolidate multiple deliveries
from the same month into a single invoice.
Must be issued by the 15th of the month following
the month of delivery.
=====

Quick Checklist Before Submitting TD24

- TipoDocumento is set to TD24 (not TD01)
- DatiDDT section is present with valid DDT number and date
- Invoice date is no later than the 15th of the month following delivery
- Amazon entity name: AMAZON EU SARL, SUCCURSALE ITALIANA — unchanged
- CodiceDestinatario: [SWIFT_CODE] for Retail, [SWIFT_CODE] for Advantage, ZDHP2W8 for Dropship
- Every line item has a CodiceArticolo with a valid EAN or ASIN
- Leading zeros in product codes are preserved
- Invoice number is unique per year
- ImportoPagamento matches ImportoTotaleDocumento
- RiferimentoNumeroLinea in DatiDDT correctly maps to the line items covered by each DDT
